Threaten To Prolong Discussion of Tax Returns and Dry Law Funds

WASHINGTON Jan 18—A fresh attack on the record of Andrew W Mellon as secretary of the treasury threatened to prolong the discussion of the proposal for a congressional investigation of prohibition enforcement and a $75,000,000 increase in prohibition funds

The richest man in the world has private business to attend to and the government's penal affairs have been allowed to run down on the job" declared Representative Hill (D) Md during the debate on the prohibition bill which he described as a farce by reason of what he was accused of not doing as secretary of the treasury

The prohibition battle will be but a tempest in a teapot compared to the storm of criticism certain to be aroused by criticism certain to be aroused by his plea for $75,000,000 in refunded taxes To date the Mellon rule in the treasury department has turned back $295,000,000 in refunds and abatements Much of this has gone to large corporations and millionaires of whom Mellon is one

Fighting Mellon

Democratic leaders saw in the attack on Mellon an indirect effort to embarrass the administration of President Hoover Democratic chieftains were quick to defend Mellon as one of the ablest secretaries the treasury has had Democrat of Georgia Democratic floor leader and Senator McKellar Democrat of Tennessee started the refund assault

THREE HELD IN $150,000 BLAST AT DETROIT

One Store Demolished, Dozen Others Damaged Bombers Unskilled, Belief

BLACKMAIL PLOT SEEN

One Woman May Die, While 30 Other Persons Suffer Bruises and Shock

DETROIT Jan 18—With three suspects in custody police today laid the blame for a gasoline explosion that razed the Garrett Furniture and Music Co store here wrecked a dozen nearby stores and the four and caused damage estimated at more than $150,000 on unskilled bomb engineers by a blackmailing ring

In the excitement immediately attending the early morning blast 11 reports had been sent out that many persons had been killed These stories however simmered down to the fact that only one person a woman was seriously injured She is Mrs Selina Muriel she was taken to Receiving hospital where attaches said her recovery is doubtful

At least 30 others living in houses within a block and a half of the scene of the explosion suffered bruises and shock when they were hurled from their beds by force of the blast

Two of the suspects arrested immediately after the blast are Joe Zappano 32 and Phil Guzzamano 25 Identity of the third man a cab driver, was not divulged by police

Zangaro was found pinned under the wreckage in an alley back of the furniture store Guzzamano was picked up unconscious a short distance from Zangaro

The explosion caused by fumes from five or six five gallon cans of gasoline placed in the Garrett store occurred exactly at 12 40 a m stopping a clock across the street at that time police said

Men Unskilled

That unskilled men handled the blasting was indicated by the fact that the damage instead of being centered on the property of Garrett the man it was believed to have been aimed at, was spread relatively over an area of three blocks

The blackmailing theory was adopted by police after they learned that children of John Garrett owner of the music store had confided to playmates recently that had men are trying to get money away from papa but he won't give it to them

Police say a gun was found on Zangaro and a knife with a seven inch blade on Guzzamano

BY GEORGE R HOLMES
Marion Star Staff Writer

WASHINGTON Jan 18—Herbert Hoover the engineer tried his hand at political peacemaking today and succeeded on the surface at least in patching up what amounts to a temporary truce among the warring Republican factions in New York

After a series of conferences with various leaders it developed that Republican affairs in New York more particularly patronage are to be directed by a triumvirate consisting of Hamond Machold the state chairman Charles D Hilles national committeeman and William H Hill Binghamton publisher who was the Hoover pre convention leader in New York in the face of opposition from the state organization In the background, but as a possible fourth in this regency will be Ogden L Mills who will continue in his present post as under secretary of the treasury

Machold as state chairman will act as spokesman for the New York Republican organization but it was indicated his function will be that of a figure head rather than boss

With only a couple of days to go before he departs for Florida and with scores of people still clamoring to get his ear, Herbert Hoover plunged anew today into the stream of conferences that has occupied almost every waking moment of his time since he returned to the capital two weeks ago

His engagement list again was filled and to top off the day he will dine and spend the evening with President Coolidge at the White House

The flood of cabinet recommendations continues unchecked

Hoover Inaugural Address To Be Broadcast on Big Hookup

FOREIGN COUNTRIES WILL HEAR MESSAGE

"Star" Announcer Will Describe Induction of Thirtieth President

BROADCAST FROM AIR

Dirigible Rider May Give Listeners Bird's-Eye View of Program

WASHINGTON, Jan. 18—President-elect Hoover's inaugural address will be carried to every state and many foreign countries by radio.

Officials of the National Broadcasting and the Columbia chains were making arrangements today for elaborate hookups which will include all of the large stations and many of the small broadcasters.

High frequency channels will carry the words of America's new president to Europe where they probably will be rebroadcast.

The bill passed by congress pertaining to the inaugural contained a few lines to permit the broadcasting companies to place microphones at various points of advantage during the ceremonies.

It was expected that besides the battery of "mikes" into which the new president will speak at the capitol, others will be placed along the line of the inaugural parade and at the reviewing stand.

Send Announcer Aloft

The broadcasting organizations will bring their "star" announcers to Washington to describe the induction of the thirtieth president.

The suggestion has been made that through the cooperation of the navy department an announcer would be sent aloft to give the radio listeners a bird'seye view of the ceremonies high over Washington.

A 10-watt transmitter, using a short wave length, could be operated from a dirigible or airplane, the signals to be picked up by Station WRC of Washington and rebroadcast to the country.

Particularly unique from the listeners' standpoint would be the diffused roar of the ovation to greet President-elect Hoover, as obtained from a radio transmitter soaring over the capitol.

20,000,000 to Listen In

The radio audience for the inaugural probably will not be as large as some of those which heard Mr. Hoover when he was a candidate for the presidency, owing to the day-time broadcast.

Probably 20,000,000 Americans, however, will hear the new president's voice, and figuratively will be in the crowd which surrounds the capitol.

By the time of the inauguration of the next president in 1933 it is almost certain that television will carry the picture of the event throughout the country.

Babe is Born as Mother Dies After Being Shot

STEUBENVILLE, Jan 18—A new born babe, lone survivor of a shooting tragedy that claimed three lives here yesterday, was alive today and Ohio Valley hospital attaches said he had every chance to continue to thrive.

The baby was born under the most unusual circumstances in Steubenville surgery annals.

His grandfather, Vincenzo Giannamore, 61 years old, retired millworker, became enraged following trouble over his property and after shooting fatally his wife, Mecheline, 57, and his daughter-in-law, Mrs. Frank Giannamore, the aged man ended his life.

Born as Mother Dies

The daughter-in-law lived two hours. She was shot in her back, but because she was about to become a mother, the bullet had more serious effects. Dr. D. V. Diloreta, the family surgeon was summoned. Since the mother was beyond all hope of recovery every effort was made to save the baby.

An operation was performed just as the mother died. The babe, a boy, weighing seven and a half pounds, was born an instant after his mother died, the physician announced.

Respiration methods were applied and the child breathed slightly, then his lungs swelled and he fired.

Some of the aged man who fired only three shots in slaying his wife and daughter-in-law and then himself, revealed today to Coroner A. L. Bell that he apparently had been suffering from a mind infection, brought on by worry over his property, which he repeatedly charged, members of the family with having tried to "do him out of."

Arrested Twice Before

The aged man had been arrested twice on complaint of his wife, who told police he threatened to shoot her.

Following the second arrest he was taken into probate court to be sent to an asylum, but his five children went before the court and pleaded that he be allowed to return home.

Frank Giannamore, son of the elderly couple, and father of the babe, last night refused to permit arrangements for a triple funeral. He insisted the body of his wife and mother be brought to his home, but refused to agree to allow the body of his father to enter the house.

DOCTOR SHOWS QUICKEST WAY TO END HEAD COLDS

Many Here Who Try Pleasant Hospital Method At Home Get Instant Relief

Doctors realizing the need to "play safe in dealing with a cold during changeable weather" are now advising home use of a pleasant hospital method that has given surprisingly quick results to vast numbers of Marion people.

C. H. Wilkins, for example, had neglected his cold for a day or so after he had begun to sneeze and cough. Examination showed that one of his nasal tubes was badly congested, his throat was inflamed and the cold was spreading rapidly, causing fear of pneumonia.

Doctors then gave him double strength doses of Ayer's Cherry Pectoral—a concentrated mixture of wild cherry, terpin hydrate and other ingredients which have relieved even the most extreme hospital cases. With the very first pleasant swallow he felt its comforting, healing warmth—from his nose passages deep down into his chest. Almost immediately his head and chest began to clear up and in another day or so, the doctor reports, there was no trace left of the cold.

Note: Other cases reported daily—all certified by attending physician.

Just a few pleasant spoonsful of Ayer's Pectoral now and you, too, will feel like a different person tomorrow. Endorsed by all druggists.

Forward Move of Industrial Stocks Gathers Momentum

DEMAND INCREASES FOR STEEL AND OIL

Rockefeller-Stewart Fight Not To Hurt Others of Family

METALS HIGHER

Johns Manville Jumps 12 Points To Reach High of 117

BULLETIN

NEW YORK, Jan. 18—Under the strong leadership of United States steel and the stocks of the copper, nickel lead and other metals the industrial stocks swung into another vigorous upward movement today. Spectacular gains were recorded in a number of the high priced specialties which have been dancing on the tape in the last week or two, and which to all appearance are headed for still higher levels.

BLAIR & COUSINS
L. N. S. Financial Editor

NEW YORK, Jan. 18—The forward movement in industrial stocks gained momentum this morning as a wave of demand for the steel, copper, motor and high priced specialty stocks swept into the market from every quarter.

Sales of 3,000,000 shares of Standard Oil of New York passed through the tape at $15 a share, after which prices moved up to the record level of 131. Such large scale buying was accepted as evidence that the Rockefeller-Stewart interests in Standard Oil of Indiana are not likely to cause a general shake up in the Standard Oil family as a whole. It also emphasized the belief that the enormous expansion of the business of the company this year

Joseph Lead pushed up an additional seven points to 87½, at the head of the metals stock group. Positive merger under powerful financial auspices is responsible for the 25 point rise in this stock this week

The copper stocks were not so active, though Utah Copper, Andes and Greene Cananea rose to the highest prices of the week

Electric Autolite and Johns Manville led the advance in the high-priced specialties, booming along at a rapid pace in a heavy turnover.

TODAY'S REVIEW OF YESTERDAY'S GRAIN

CHICAGO, Jan 18—A further advance in grain prices in the early trading yesterday brought out heavy realizing, and prices eased off to below the previous close, but the markets absorbed the offerings and rallied easily in the final ten minutes of trading.

Corn again went to new high levels on the crop, with buying based on bullish Argentine news and a sharp advance in cash prices for U. S mixed corn at Liverpool. Stop loss orders to buy were met when May went through $1. Profit taking sent prices back again, but the closing rally put them up within a shade of the day's high, with March at 97½c, May $1.00½, and July, $1.02⅜, or ⅝@1¼c higher

Wheat price movements were also erratic. Strength at Winnipeg and Liverpool led to early buying, but weakness in corn and realizing caused a recession. The late rally was not as extensive as in corn but prices were ⅛@⅜c higher, with the March at $1.20; May, $1.23½, and July, $1.25¼

Oats made a moderate response to the strength in corn, finishing with gains of ¼@⅜c. Rye was irregular, closing prices showing ⅜c higher to ⅝c lower.

Sentiment was very bullish at the close of trading, particularly in corn This was mainly based on that market's brilliant recovery after the enormous amount of profit taking encountered throughout the session Then, too, there were unconfirmed reports of hot winds in the Argentine.

Similarly, ther was a friendlier feeling toward the constructive side of wheat, for that market was also called upon to withstand heavy pressure from realizing. The sentiment was reflected in the privilege trading, when spreads between closing prices and the "offers" in corn were the widest they have been on the present upturn. Wheat "offers" were also dear.

Cash corn continued strong and country offerings were still comparatively light, with further reports of higher bids from outside markets than from Chicago. A wire from seaboard said there was still some short covering in corn by those who were long freight, but that large cancellations were being made on a profitable basis by holders without charters

Estimated Argentine corn shipments this week were 1,614,000 bu, compared with 2,106,000 bu last week and 3,441,000 bu a year ago. U. S. mixed corn in the Liverpool spot market advanced 2⅜c overnight, while plate corn made a gain there of 1½c. Quotations yesterday morning were 1.23⅛ for U. S. mixed and $1.25¾ for plate.

PAYMENT IN FULL SOUGHT ON BOND

County Commissioners To Make Demand on Former Recorder's Surety

The board of county commissioners will demand full payment from Charles D Smith's bonding company when settlement is made for a shortage of $2,910 80, which is charged against Smith in a report of state inspectors of public offices This statement was made at the commissioners' office today.

Smith, former Marion county recorder, was removed from office after being absent from the city since April 28, 1928. An examination of his office made shortly after that date revealed an alleged shortage in his accounts of $2 910 80 The examination was made by T. W. Jones and A. G. Atwell, of the state bureau of inspection.

Whether the bonding company will contest the payment of the entire shortage is not known It is thought that the company will attempt to claim Smith's salary, which has accumulated from the time he disappeared until he was removed from office a week ago The salary for eight months amounts to $1,110 It is thought that the bonding company may attempt to claim this amount to reduce the settlement with the county

Smith's alleged shortage is covered by two $2,000 bonds with the surety company.

SCHUBERT QUARTET BOOKED FOR JAN. 21

Group To Appear Here as Feature of Harding High Course

Monday night, Jan. 21, at 8 o'clock the Schubert male quartet will appear at the Star Auditorium as one of the series of numbers which the senior class of Harding high school is bringing to Marion this year on the lecture course program.

This is a fitting time to bring Schubert melodians to the city. The world has celebrated the one-hundredth anniversary of the death of Franz Peter Schubert, recognized as one of the greatest composers the world has ever known.

Organized four years ago by George O. Miner, Christian Lasso, the group has made three successful transcontinental tours of America. The personnel includes George O. Miner, first tenor and director, Harry Cole, lyric tenor, Erwin Dillon, dramatic tenor and soloist and Charles Pottier, baritone. Miss Aileen Russell presides at the piano. Much of the charm of the Schubert program is added by the addition of the violin and cello to the group.

The feature of the program which will interest everyone will be the colored pictures taken from the life and works of Schubert. "The Song of Love" and "Ave Maria," are two of his immortal compositions which will be sung in costume.

The Schubert male quartet made a tour of 20 weeks from coast to coast, appearing in Earl Reubens' musical comedy, "Three Little Maids," during the winter of 1925-26.

Reserved seat sale has started at the high school. Reservations may be made at 12 o'clock noon or after school opposite the principal's office on the second floor of the building.

PROSPECT CLASS ELECTS OFFICERS

PROSPECT, Jan. 18—The Progressive class, of the Baptist church held a meeting Monday night in the church basement. The following officers were elected: president, Eugene Kinard; vice president, Gay Hoffman; secretary, Mrs. Ross Thomas; treasurer, Mrs. Alvin Emberton; piano, Ruth Moyer. Games and contests completed the program. Refreshments were served to 45 by the committee composed of Mr. and Mrs. Ross Thomas, Mr. and Mrs. J. R. Bishop and Mr. and Mrs. Charles Berry.

"MY DUTY IS TO TELL THE WORLD ABOUT KONJOLA"

Implication That Held Painful Sway for Seven Years, Quickly Relieved By the New Medicine

MRS. SAM KOHANKIE

Tribute after tribute pours in, making a stream of indorsements for Konjola, the new medicine. Those who suffer will be interested in the wonderful experience of Mrs. Sam Kohankie, 223 Erie street, Painesville, Ohio.

"Wonderful beyond words is this Konjola, for just three bottles of this marvelous medicine have vanquished my health troubles. For seven years I suffered the torments of indigestion, torpid liver, disordered kidneys, constipation and rheumatism. Every meal was followed by gas, bloating, heart palpitation, headaches and the spitting up of sour liquid. I was in a terribly wretched condition.

I read and heard so much about what Konjola had done that I began wondering if it would help me. I doubted it, for nothing ever had. But three bottles of this medicine regulated my bowels and liver; my kidneys were put into normal condition, the indigestion vanished. Now all I want is to be able to eat a hearty meal, to sleep well after the suffering I went through. I recommend it to other sufferers to tell about Konjola."

Konjola is different than any other medicine in this section. It contains no juices extracted from roots, herbs, barks or flowers, which invigorate the kidneys and bowels with violent action. The effect is felt on the entire system and relief in cases of suffering has been going on for years. At the same time, many of the weaker systems have been built up to a new state of health through this compound. Such a vast number of men and women in this locality tell of their experiences with this medical compound, that Konjola is the most highly recommended medicine that is known to science.

Konjola is sold in Marion at Sayre & Sams Pharmacy and by all leading druggists throughout this section. Adv.

RUTH FAILS TO GO TO WIFE'S SERVICES

Whereabouts of Daughter is Mystery; Conferences Between Attorneys Begin

BOSTON, Jan. 18.—"Babe" Ruth, who went into seclusion following the burial of his wife, failed, as scheduled, to attend final funeral services today—a high mass of requiem at St. Augustine's Roman Catholic church.

The whereabouts of nine-year-old Dorothy Ruth was, meanwhile, surrounded in mystery. She left the Academy of the Assumption at Wellesley in care of a person designated by the "Babe." It was understood that she was to have been taken to New York.

Conferences were in progress between attorneys over the child as well as regarding the disposition of Mrs. Helen Woodford Ruth's estate and the possession of her letters, jewelry and trinkets. The first legal move to secure the belongings found in the ruins of Dr. Edward H. Rieder's bungalow in Watertown was a petition by Mrs. Johanna McCarthy, a sister of Mrs Ruth. She asked for an order to restrain Chief of Police John Millmore of Watertown from surrendering to "the Babe" or anyone else the contents of a strong box and a cardboard case found in the fire ruins.

Probate Judge John C. Leggett of Middlesex county denied the petition on the ground that Mrs. McCarthy was not a legal heir of Mrs. Ruth and that there was no evidence to show that there were documents or jewelry in Chief Millmore's possession which belonged or pertained to Mrs. McCarthy.

TO BAR COUPLE

Congressional Club Seeks to Keep Negro and Wife Out

WASHINGTON, Jan. 18 — The Congressional club, composed of wives of senators and congressmen and others in official life, is facing a vexing question, and one that probably will be solved by the club's putting into effect a "black ball" system for the first time in its history.

Mrs. Peter Gerry, wife of the senator from Rhode Island, who was formerly Mrs. George W. Vanderbilt, is now president of the club.

The perplexity arises out of the fact that in the next congress Oscar De Priest, of Chicago, a negro, becomes a member. Under present rules, Mrs. De Priest automatically would become a member of the club with full privileges.

An amendment will be sought to the constitution next month which will give a membership committee power to approve or disapprove an applicant for membership. It involves a change in the club's constitution.

MODERN WOODMEN INSTALL AT CAREY

CAREY, Jan. 18—The Modern Woodmen installed the following officers Monday night: George Wolfrum, venerable consul; Charles Boyce, advisor; Forrest Dame, clerk; George Ash, A. E. Constien and W. L. Lindsay, trustees; Earl Briggs, watchman; Elmer Derring, sentry; Charles Kentfield, escort; Dr. R. C. Van Buren and Dr. J. D. Siddall of this place and S. H. Hogan, district deputy of Upper Sandusky, were installing officers.

With JACK or JILL

(BY JILL)

"HONEYMOON, with Polly Moran and Flash" is the picture, Marietta Craig & Co Stillwell & Frazier and the Three Lordens, through Saturday at the Palace

• • •

Quite a contrast from the host of beautiful chorus girls we see on the stage is Polly Moran, one of the principals of the picture Honeymoon From the wording will fails to put enough in concede she is attractive but she is funny The story is comedy from start to finish—not the kind that leaves one breathless from mirth but the series of comedy is certain tantalizing provoke giggles aplenty Flash is the same well behaved dog he is in all his pictures and adds much to the story from his doing just what the director tells him The subtitles help a lot in putting a kick into the show which is rare to see and then forget

MARIE PLAYCHAIR who played the part of Lois the maid with the original company in The Bat presents a treat for on the stage in the leading role of the vaudeville program Its dialogue has plenty of punch and Miss Cruze shows her love acting I wish she came to be with the original company It's plenty scarce

• • •

It isn't a bit difficult to sit through the performance of the three Lordens acrobats They mix up with some unusual tumbling and trapeze work and dancing

tails aren't even given to senators and representatives If the taxpayer is satisfied the refund can't even be aired in court On one occasion Senator Couzens Republican of Michigan directed an investigation into the subject but congress never took any action to change it

Now the Democrats have rallied behind the bill of Senator McKellar to give the board of tax appeals full authority over all tax refunds in excess of $10 000 In the past Mellon has held that authority with the board merely acted as a court when the taxpayers protested a settlement McKellar offered his bill as an amendment to the $370 000 000 appropriation

Proceeding Revealed

At secret hearings held on McKellar's bill many strange proceedings were revealed in the treasury department A $7 000 000 refund was given the U S Steel Corp against the treasury's own regulations A $6 000 000 refund was given the American Tobacco Co when it could not have received in the courts The steel company it also was shown had been refunded $57 000 000 on tax paid in one single year—1917, and the refunds were all made 10 or more years later

Fight off "FLU" with Florida Oranges and Grapefruit

Florida rushing citrus fruits to epidemic cities—former President of Hahnemann Hospital, Chicago, tells here of protective measures

FOREMOST physicians say that one of the quickest, most effective precautions against influenza known to modern medicine is to eat—and drink—oranges and grapefruit plentifully

For citrus fruits turn alkaline in the system—build up the alkaline reserve that increases resistance to common colds, grippe and influenza. They provide vitamins and mineral salts that help the general health of the body—for oranges and grapefruit are one of the world's richest known sources of these vital food factors. They combat acidity—so often resulting from the usual heavy winter diet—acidity which is an internal enemy of the body, lowering normal resistance and inviting illness.

Start Citrus Protection Without Delay, Doctors Warn

Now, with the influenza epidemic raging in city after city throughout this country, leading doctors everywhere are urging adults and children to take the precautionary health measures listed here to help fight the disease.

Everybody, young and old, should have plentiful amounts of Florida Oranges and Grapefruit every day—several times a day A glass of orange juice or half a grapefruit for breakfast is nowhere near enough. Serve Florida Oranges or Grapefruit at every meal—and in between times. The newest way for grapefruit is as a drink—squeezed right into the glass—chilled—sweetened a bit if preferred.

But in whatever form, remember that at this time Florida Oranges and Grapefruit are recommended urgently by modern doctors as one of the most important protective measures possible against the "flu" and other kindred illnesses.

This advertisement is sponsored by the Florida Citrus Growers' Clearing House Ass'n, Winter Haven, Florida.

DR. DANIEL R. HODGDON, of New York, formerly President of the Hahnemann Hospital in Chicago, has successfully prevented colds and "flu" among 1100 children whose diets he now personally supervises. He says:

"Too much stress cannot be laid upon the use of citrus fruits and fresh vegetables during any influenza epidemic. Each person should eat generous amounts of oranges and grapefruit, together with plenty of raw vegetables every day.

"Should you feel a cold coming on, an extra measure of protection is to drink the heated juice of a grapefruit just before retiring, in addition to the grapefruit and oranges you take several times during the day. There is no surer way of breaking up a cold or influenza. Avoid rich foods and overeating. Get plenty of sleep, keeping windows open. Keep house temperature even throughout the day, avoiding overheating. Stay out of crowds if possible.

"If you feel ill, consult your physician immediately."

Stuffed-Up, with Cold? Try this on Handkerchief

Druggists everywhere say they have never seen anything like the way their customers and friends are coming in for more of the simple discovery, known as "Arome," which thousands now are carrying on their handkerchiefs.

People all over this section are telling others about this wonderful preparation on account of the marvelous way it helps sufferers from coughs head colds, bronchial colds, nasal catarrh and headaches

Nothing could act quicker than 'Arome' because it goes directly to the seat of the trouble There's no waiting for tablets or powders to be absorbed through the system 'Arome' is an aromatic liquid which vaporizes as you breathe it in through the mouth and nose It penetrates all the air passages, quickly driving out the congestion which is the cause of most headaches, as well as that feverish weak condition. people are usually in from coughs and colds It soothes the inflamed and irritated lining of the nose and throat, gets rid of that stuffed up feeling and the mucous discharge from colds, makes you comfortable and happy again.

You can use "Arome" at the office, on street cars, anywhere. A few drops on your handkerchief, where you can breathe it in as you think of it will last all day. Or you can easily carry the handy, 50c vial in purse or pocket. All dealers recommend and guarantee it—Adv.

District Lieutenant Governor Speaks At Meeting of Mt. Gilead Kiwanians

MT GILEAD, Jan 18—Bringing with him some of the enthusiasm of the Kiwanis district meeting the day before at Toledo, Lieutenant Governor Dr J W. McMurray of Marion outlined some of the ideals of Kiwanis and made some practical suggestions for the local club here yesterday in a speech before the Kiwanis club in the Lodella Inn

Beginning with the statement that thoughts were worthless unless put into action he brought before the club some of the duties of Kiwanis among which was a pledge of unselfish service He suggested directions in which public service could be given through the medium of the county health commission county schools, Farm Bureau club and Grange organizations One of the best opportunities for Kiwanis to express itself he pointed out was through the county fair He gave the instance of the Sandusky club taking over Wednesday of the Erie county fair and making it one of the big days of the fair drawing a larger crowd than either of the following days Dr McMurray suggested a program for the local club

Enumerates Work

He enumerated some of the activities which Kiwanis has taken on its shoulders to improve among these being the underprivileged child problem, which is vitally important although as Dr McMurray said not as essential in this particular country. He explained how the establishing of camps for these children had done some very beneficial work He extolled the value of vocational training explaining that most of the grown ups came by their present position because certain events had happened that resulted in their present positions and that chance had played a more important part in deciding what their life work would be than their original plans or aspirations Dr McMurray stated that vocational training would have settled the question of an occupation for most of those had they received this training He also mentioned the advantages of club work in this connection

Cites Aims

Dr McMurray stated that one of the aims of this year is for each club in the district to increase its membership 10 per cent He then explained the responsibilities of the various club committees and said that the job of the attendance committee was to get the members out to meetings and it was then up to the program committee to see the meeting was sufficiently interesting that they would want to come again

One of his suggestions for the local club was an interclub meet at a 'county camp' as camps are common around Mt Gilead This would do much to stimulate interest and offer a diversion from the regular luncheon meetings

The Kiwanians voted to hold their regular luncheons in the evening instead of noon

ITALY WILL HAVE PAPAL AMBASSADOR

Aggressive Diplomatic Policy Likely To Follow Dispute Settlement

ROME Jan 18—Although the proposed new papal state will be within Rome—the seat of the Italian government—Italy will have an ambassador accredited to the *Holy See* just as though it were a distant power it was learned today

This envoy will look after Italy's interests especially in ecclesiastical affairs It is expected that Spain France England and Germany will be among the countries appointing diplomatic envoys to the new papal state It is not known if the United States will do so There is a papal nuncio stationed in Washington

It is expected that the settlement of the long standing dispute between the Catholic church and the Italian state which appears to be imminent will be followed by an aggressive diplomatic policy The Catholic Church has been suspected to dissatisfaction by Soviet Russia and Mexico In the former nation there is a movement to stamp out all religion Mexico passed laws making it impossible to hold public services

Benefits Financially

The problem of customs and excise taxes in the new state has been settled easily Their collection will be left to the Italian government by the Vatican

The Vatican is going to benefit in a financial way Italy will pay into the Vatican coffers about 1 000 000 000 lire it is understood This would be about $52 000 000 in United States money It is spoken of as an indemnity It represents the annual payments of 3 225 000 lire which the Italian parliament voted in 1871 to pay annually to the pope *The difference* is made up by the accumulated interest Neither principal nor interest as was offered by the pontiff

Moral Benefits

The benefits Italy will get from the agreement are chiefly moral It will remove a certain friction and will silence those who might be tempted to say that the Italian state was treating the church unfairly

There will be a diplomatic advantage also Italy will be placed in the same category as the other Catholic nations in dealing with the Vatican

Here they are—at Schaffner's! The new and improved 1929 Models of *Majestic*—"Mighty Monarch of the Air." Far more beautiful in appearance, superior in chassis construction, more perfect even—if that were possible—in the performance of the famous *Majestic* Super Dynamic Speaker—they stand out like shining stars on the firmament of radio achievement. It was *Majestic* that rose to spectacular fame in the radio world. Since last June, when the first *Majestic* receiver left the factory, over 600,000 *Majestics* have been produced, and are giving such consistently good performance that this, too, has amazed the world. It was a *Majestic* Set that crossed the ocean to Europe on the epoch-making flight of the "Graf Zeppelin," and it is *Majestic* that stands now before you—two new models—more beautiful and more perfect in performance than anything that has ever been produced in radio at a moderate price.

Many have been waiting eagerly for this event! Their patience will now be rewarded! Come to Schaffner's store tomorrow and enjoy a demonstration of the new Majestics. The demand for new Majestics will be even greater than it was for last year's models and we sincerely urge you to place your order now —Deliveries will be made in the order received.

We cordially invite you to purchase your NEW 1929 MAJESTIC on a 30-day Charge Account or a Schaffner Extended Payment Charge Account. We endeavor to meet the requirements of all who wish terms, both in the amount of the Initial Payments and length of time desired.

HARDING FACES SECOND N. C. O. TEAM

BUCYRUS WILL BE PLENTY TOUGH FOR COMPTON'S CAGERS

Both Schools To Start Regular Squads in Game

STARTING LINEUPS

Harding	Pos	Bucyrus
Roush	RF	Monnett
Walker	LF	Leech
Gillis	C	Taylor
Casiner	RG	Cooney
McAninch	LG	Baker

By KARL H. McELROY
Sports Editor, The Star

FACING their second North Central Ohio league battle in as many weeks, Harding's Red and Black basketeers will attempt to gain a firmer hold on the titular pennant tonight when they meet Coach Winter's Redmen at Bucyrus.

Outside of Harding, there are three outstanding teams in the league this season Harding disposed of one of them when it defeated Mansfield last week. Tonight the locals will meet the second serious contender for the honors.

Advance dope favors the Red and Black in the contest. Bucyrus has played six games this year dropping two of them to Fremont and Bowling Green. Both contests were lost by *the narrowest of margins in overtime games.*

Harding's record is somewhat better although the locals have met but one really tough team to date Marion has won three out of four starts and it was not until Mansfield was beaten that Compton's men showed their real calibre

Compton concluded a week of hard practice for his team with a light workout last night in Star auditorium. The squad is in good condition, no injuries having been reported to date

If McAninch continues his scoring spree that was uncorked at Mansfield, Harding should have no trouble in winning Gillis is expected to be "on" tonight while Roush and Walker are serious scoring threats at all times

Last year Harding lost the N. C. O. championship by a margin of two points The locals lost to Mansfield and Ashland while winning from the remaining three teams With two tough opponents yet to be played it is quite possible that the same will happen this year Bucyrus is hoping for an upset similar to the one that gave Harding its victory last week.

The contest will be played on the Bucyrus high school court with a preliminary between the Bucyrus and Fremont girls scheduled for 7 15 o'clock The main attraction will start at 8 15

"READY FOR SEASON'S OPENER"

From his farm down Hollis, Okla., way, Wiley Moore, great sinker ball star of the New York Yankees, telegraphs Cousin Ed Barrow that his "slick" pitching arm is a thing of the past, that is, it is ailing no longer. And Cy predicts that he will be able to perform on the mound regularly from the day the season opens.

LAST NIGHT'S FIGHTS

At Minneapolis—Armand Emanuel San Francisco heavyweight, outpointed Harry Dillon, of Winnipeg (10).

At Davenport, Iowa—Otto Von Porat, Chicago heavyweight, knocked out *Tom Sayers, Detroit* (3).

At Jersey City, N. J.—Ossie Bobkins, Detroit, scored technical knockout over Mickey Marchetta (1).

At Waterville, Me.—Art Giroux, Montreal, drew with Johnny Ross, Boston (6).

High Salaried Players Make Baseball Poor Investment

LEAGUE CLUBS PAY MORE; GATE SAME

Early Promoters of Sport Made Fortunes When Total Pay Roll Amounted to Less Than $125 000. Ruths, Cobbs Change Things

BY HANS C MENDI

...ger is a good B... ...plation so far as ... league franchise ... pay 10 times ... our outfit ... with the statement ... Bill Veeck pres... ...o Cubs who said ... not paid so much ...ield in the last ... ...ttle or attendance ...rawing cards in ... most of those 16 ... occasions had he ... No Big Stars ...ben the fate of the ...known only half the ...d into the Cub treas... ... a high salaried ... or two men who ... wages through the ...

18 seasons then that might explain the absence of definite profits But the Cubs haven't carried any Ruths Cobbs Sislers Hornsbys or Speakers on their roster

They have paid their men well yet they have not come really close to the Yankees Giants or Athletics in the matter of outlay for wages

In the earlier years—10 to 20 ago—men in balldom made big profits. Charlie Murphy who ran a shoestring into a million while he owned the Cubs was one of them Charlie Ebbets was another Then there was Connie Mack Charlie Comiskey Barney Dreyfuss and that crowd which got into the game early

Salaries Lower

Those were the days when the attendance annually was almost as great as it is now and when the salaries were one third the size of today But since it has been necessary to pay more money to the players pay far higher rates for minor leaguers and also to build new stadiums the profits have disappeared—even off the books of the most prosperous clubs while the others have ended up year after year with a deficit.

An old timer discussing the situation said

Go back to 1912 That was a good baseball year for the magnates There weren't any $30 000 $40 000 $50 000 and $70 000 ball players then

In fact there were some clubs with a full payroll not much greater than Babe Ruth's salary is today

Players Cost More

Then a high salaried ball club was one that paid out no more than $150 000 a year while the inferior ones got along with an outlay of less than $100 000 And in that era a magnate could get the starriest kind of star from the minors for $10 000 or $15 000

The Federal league automatically shoved up salaries 25 to 40 percent—without any real increase in attendance As the years have gone on the wages have grown higher and higher until now the cheapest club in either league is paying out close to $200 000 a season to players and manager The topnotchers pay out—well it's all a wild guess because the club owners are mighty secretive about it

But when you figure that the Yanks pay beyond $160 000 to three men—Ruth Gehrig and Huggins—and must pay about 23 other men you can make your own guess as to the Yankees payroll—and don't be too conservative

So long as a team is pulling in the crowds like the Yanks and Giants have done all is well But if it has two or three bad seasons it needs about six good ones to make up for it And when a business is conducted along these lines it ceases to be an investment proposition it is a speculation of the wildest kind with the element of a bad weather bad luck and a lot else always menacing the proposition

So it would seem that if you want to invest your money don't buy a ball team whereas if you insist upon risking a gamble then go get yourself one of those B B outfits

There are plenty for sale

LOMSKI HAS EDGE IN EARLY BETTING

Odds Are 5 to 1 That Braddock Will Not K. O. Opponent

NEW YORK Jan 18—Odds are 5 to 1 that the youthful James J Braddock does not put the sleep plug on Leo Lomski tonight at the Garden and 2 to 1 that the Aberdeen Assassin carves a decision on the Jersey palooka

Those who regard the even money opinion of a scrap between two of the pretenders to the light heavyweight throne

They seem a bit out of line

As I miss I Braddock is fighting more by main strength than by skill Lomski is an excellent ...

Jimmy Loughran the champion

Jimmy still figures to ...tbox any of his rivals and when he is hurt he can present as few openings as a frightened porcupine

Lomski is no Loughran as a boxer He is cast in a sturdy mold and add substitute a rushing two fisted attack for the customary maneuvering of the orthodox boxer Leo has been impaled on some of the best left hooks and right crosses in the barbed wire entanglements of his division but has never been spilled for the long count

Still there is a first time for everything It came to Pete Latzo and Tuffy Griffiths at the hands of Bud Cook

Before Braddock asked Lomski the center of the picture by hauling Griffiths on his car he was rated as just an ordinary performer despite the fact that he had cracked Pete Latzo's jaw with one of Lomski's rights

FOUR KILLED WHEN THREE TRAINS CRASH

Railroad Officials Begin Investigation into Maryland Wreck

ABERDEEN, Md., Jan. 18—With four trainmen dead and another in a critical condition, Pennsylvania railroad officials today pushed a vigorous investigation into the triple wreck of two express trains and a freight a mile and a half from here late yesterday.

The first collision occurred when a combination mail-passenger train with eight coaches crashed into the rear of an extra freight pulling 90 cars. The passenger locomotive and the freight caboose were demolished and several freight cars were thrown across the southbound tracks. A few minutes later the crack Southern Express, carrying passengers bound for Baltimore, Washington and the south, crashed into the wreckage.

Railroad officials blamed the blinding fog for the first crash, but said they could not understand why some member of the train crews of the northbound passenger train or the northbound freight did not flag the oncoming Southern Express.

CRASH COMES NEAR HURTING KREISLER

ABERDEEN, MD., Jan. 18—The Pennsylvania railroad smash-up near here last night came close to running a pair of hands and arms that financially are almost priceless.

Fritz Kreisler, the violinist, was among the passengers shaken up in the crash. He emerged from the wreckage through a window, with nothing more serious than a badly

Once clear of the wreckage, the noted artist wiggled his million dollars fingers, flapped his million dollars arms, felt himself gingerly and then gave thanks that it was no worse.

LOSES YOUNG BRIDE

Youth Must Not See 12-Year-Old Wife for Six Years

NILES, Jan. 18—James Lucas, 18, today was under a court decree which forbids him to see his 12-year-old bride, Eunice Parsons, for the next six years.

It was learned that the two had been married in Wellsburg, W. Va., Dec. 28. When they returned here the girl met her former teacher on the street about a week later. The teacher had both brought into court.

Judge William J. Hyde, in the Trumbull county probate court, fined Lucas $50 and sentenced him to 90 days in jail on a charge of contributing to the girl's delinquency. The judge then suspended the fine on condition that the youth stays away from his girl-bride for six years, or until she is 18.

Book Reviews

Turning New Pages

WITH EDNA S. DUTTON

ONE meets most of the characters in John Bojer's book, "The New Temple," at the bier of the widow of Brusseth and bids them good by at the christening of the child of her foster daughter. The story gives one the feeling of having to wade through the many and varied experiences of the family but at the close one believes that with Lorentz, in his priestly robes, Louise, happy in her little family, and their parents, Peer Holm and his wife Merle assured of a comfortable care during their remaining days, all will be well.

The story, which is translated from the Norwegian by C. Archer, holds the interest, but can scarcely be called entertaining. Is utterly lacking in any point of humor and is without romance. The widow of Brusseth, who is dead when one learns of her existence has been a woman of dominating will and purpose, with a tenderness only for her foster children, Louise and Lorentz. To the girl she leaves most of her possessions, including the Brusseth estate, knowing full well that she is the one who will carry on with the same courage and executive ability.

One is in deeper sympathy with Lorentz, who takes a flair in communism, but doesn't exactly practice what he preaches. After wandering about apparently aimlessly with regard to reason or destination he pours out the answer to his questioning in a letter to his parents: "If death is a vanishing forever, then, and then most of all, the human beings who believe are infinitely dear to me. I would fain join hands and with them and say: "Let me share in your error, take me with you as your brother. If God is neither in the storm, in the calm nor among the stars, with all the more assurance should we worship Him, for thereby we show that at least He is in our own hearts."

The parents are homely folk, who seem to do mostly as they are told. One has a feeling that the housekeeper, who has an air of mystery about her and the overseer of the estate would have much more interesting affairs in their lives than the characters Bojer has chosen.

Sinclair Lewis' New Book

SINCLAIR LEWIS, of Babbit fame has written another book which is altogether different from the acid satires for which he is famous, and seems to have struck a deeper and more universal note in his choice.

Lewis introduces the quiet slow spoken reserved millionaire builder of automobiles, Samuel Dodsworth, quite the contrast to the booming Babbit. Dodsworth is 50 years old. He has sold out his automobile business to a great motor trust and now has money and leisure to go after those things which he feels he has missed and his wife desires. They close their house in Zenith and go aboard for an indefinite stay and how they travel.

"Dodsworth," which is the title of the new book, is above all the story of the American husband and the American wife, a study of American marriage, its confusion, its endeavors its futility. It raises questions which all classes are asking today, is the American husband wife-ridden? Is there an undeclared warfare between men and women who are aiming at the achievement of different values? Are American husbands unskilled in holding the affection of their wives? Samuel Dodsworth and "Fran" his beautiful and fashionable wife, sum up a thousand American marriages, with sympathy and understanding but is an challenging as any of its predecessors.

Three Books for Early Release

THE author of "Mother India," follows through her appeal for the release from bondage of India's unfortunate people in "Slaves of the Gods."

Edith O'Shaughnessy tells of village life in Leichtenstein in a delightful manner in her new book, "Other Ways and Other Flesh."

Ivor Brown Answers a Question

DOES the pallor and white smock of the modern clown derive from the deadly whiteness and grave clothes of those elected early mummers who played the ghosts of the mighty dead? In "First Players," Ivor Brown speculates on this and traces the development of the drama from ancient plays where Death and Mummer went hand-in-hand.

NORTH CAROLINA TO PAY EXPENSES FOR REUNION

CHARLOTTE, N. C.—The current session of the North Carolina state legislature will be requested to appropriate $50,000, the expenses of the next annual Confederate reunion to be held here in June, it was learned today.

Edmund R. Wiles, general manager for the reunion, announced that a bill will be drawn up asking the legislature for the fund. Joseph Daniels, former secretary of the navy, has indorsed the movement, it was said.

ANCIENT GERMAN BELL HAS SYMBOL OF TRINITY

NORDHAUSEN — Forgotten for centuries, an unusual representation of the Holy Trinity has just been discovered on the bell of the church in Gudersleben.

The symbolism is a head with four eyes, three noses and four mouths. The bell was cast before the Reformation.

What makes them taste so good?

With the first bite you'll notice the difference—a delicate, unmistakably richer flavor. The wise old cook will tell you to thank your Pillsbury's Best Flour for that finer flavor. The food editors of leading magazines, women who have studied baking all their lives, tell the same story—that the flour you use has a lot to do with the flavor of the foods you bake.

The secret is in the wheat fields—Pillsbury's Best Flour is milled only from carefully selected, full-flavored grain. It makes foods that really taste better—it gives them that richness which comes only from certain kinds of wheat, properly milled. Your grocer has this flour—be sure you get it!

MIAMI TEACHERS TOLD HOW TO SPANK PUPILS

MIAMI, FLA.—Charles M. Fisher, superintendent of schools in Dade County, with headquarters in Miami, has issued instructions to teachers on "How to Spank" unruly pupils. Punishment must be administered in "kindness", he says, and at a period of at least 24 hours from the time of misdemeanor.

In direct contrast to Marquis of Queensbury rules, all blows above the belt are considered foul. The same is true of hitting below the knees, but from the belt to the knees is unrestricted territory.

BROOKLYN SEES REVIVAL INDUSTRY; STUDIO OPENS

NEW YORK—Brooklyn is coming back into its own as a movie colony. Long before Hollywood was heard of, they were "shooting pictures" in the Borough of Churches.

However, as the industry progressed fewer and fewer pictures were produced in Brooklyn. Eventually they were given up entirely. But today there is plenty of activity in the ancient Vitagraph studio. The dingy studio is being worked to the limit of its capacities. Warner Brothers have taken it over and are planning to film all of the Vitaphone short subjects there.

Richwood News

RICHWOOD—Mr. and Mrs. R. Stultz were Sunday guests of Mr. and Mrs. Roy Benedict, of Prospect.

Mrs. Royal Winters, of Clarksburg, W. Va., is visiting a few days with Mrs. Jean Cheney and Mr. and Mrs. Lloyd Winter.

Rev. and Mrs. W. T. Williams of Milford, visited friends in Richwood from Saturday until Tuesday.

Jacob Fackler, attorney, left Tuesday for Toledo where he will be in partnership with his brother, Clarence Fackler.

Mr. and Mrs. Walter Saltz, of Marion, were in Richwood Tuesday, and attended the funeral of Mrs. Lucy Shelhorn at Finley chapel.

Myron Miller spent Tuesday in Cincinnati on business for the American Legion.

Miss Lillian Sanders, of Dayton, is visiting a few days with relatives and friends in Richwood.

Mr. and Mrs. Alfred Joliff, of Columbus, is visiting a few days with Mr. and Mrs. Fred Cramer and family.

Ritzy Rosalie

IF Rosalie had little hollows in the places where the large motifs of her new necklace lie, like many of her less rounded sisters, she would appreciate her new necklace even more than she does. As it is, its novelty constitutes its chief charm. The principal motifs are heavy and lie at the sides instead of in the middle, so that the necklace falls in a rounded position in both the front and back instead of the ordinary "V" in front. When one is the owner of several sets of good costume jewelry it is possible to follow the fashion of Parisians who buy their frocks as a background for their jewelry.

MOTOR CLUBS BACK TWO TRAFFIC BILLS

Local Organization Aids Campaign for Drivers' License and Speed Laws

Two proposals of major importance to the Ohio motorist will be submitted at the current session of the General Assembly by the Ohio State Automobile association and its affiliated automobile clubs throughout the state according to a report received today by the Marion Auto club

Announcement was made by former State Senator F F Whittemore, of Akron who is chairman of the Automobile association's special legislative committee

The two proposals provide for enactment of a driver's license law and amendment to the state traffic code wiping from the statute books all provisions placing limits upon the speed of automobile travel on highways and villages and upon the open road, thus placing traffic law enforcement upon the basis of careless and reckless operation

The proposed drivers license law which the state association and its affiliated clubs will sponsor was drafted some time ago by the Ohio State Safety council

Gets Endorsements

Among the many civic and business organizations that have explored it and who have indicated their intention to support it in the legislature are the Ohio Farm Bureau federation the Ohio State Federation of Labor, the Ohio State grange Cleveland Safety council Cleveland Railway Co the Ohio State Chamber of Commerce the Cincinnati Automobile Dealers and Manufacturers association the Cleveland division of the New York Central Railroad Co the Columbus Retail Merchants association the Ohio Safety safety engineer the Ohio Industrial commission the Ohio Manufacturers association the Buckeye Steel Castings Co the Royal Insurance Co the Ohio Good Roads federation State Director of Education College of Agriculture Ohio State university the Ohio Commission on Public Utility Information State Department of Health the Hocking Valley Railroad Co the Fire Prevention Association of Ohio and the Youngstown Sheet and Tube Co

The bill proposes a fee of 50 cents 25 cents of which will revert to the state The remaining 25 cents will go to defray expenses of deputy commissioners who will issue the licenses

No Age Limits

No age limits are stipulated by the proposed measure This matter is to be solely determined by ordinance in the various municipalities in the state and other regulatory measures in the rural districts

Whittemore indicated that a vigorous effort will be put forth to enact the driver's license proposal into law and that just as vigorous an effort will be launched to defeat any measure that would create new department at the motorists expense

Details of the proposal to eliminate fixed speed limits will be announced shortly, Whittemore says
